

The following is an index of the major topics addressed in the AANA Journal during 2009. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A

- AANA Journal see Guest Editorial, 105
- AANA Journal Course No. 29 Examination Information—Update for nurse anesthetists, 161
- AANA Journal Course No. 29 Examination—Update for nurse anesthetists (answer form), 162
- AANA Journal Course No. 29 Examination—Update for nurse anesthetists (examination questions), 166
- AANA Journal Course No. 29 Examination—Update for nurse anesthetists (examination answers), 341
- AANA Journal Course No. 29–2010 Evaluation Form, 163
- AANA Journal Course
 - Part 6—Lipid infusion as a treatment for local anesthetic toxicity: A literature review, 69; Part 1—Anesthesia case management for thyroidectomy, 151; Part 2—Cystic fibrosis: A systems review, 246; Part 3—Ultrasound in anesthesia: Applying scientific principles to clinical practice, 332; Part 4—Treatment of tracheal and bronchial tumors and tracheal and bronchial stent placement, 413; Part 5—Ventricular assist devices and anesthetic implications for noncardiac procedures, 483
- Abdominal pain
 - Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462
- Accreditation
 - Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2011, 42; Council on Accreditation of Nurse Anesthesia educational programs to be reviewed during fiscal year 2012, 490; Recognized educational programs, 502
- Acute liver failure
 - Case report: Anesthetic management of acute fatty liver of pregnancy in the postpartum period, 223
- Acute normovolemic hemodilution in a Jehovah's Witness patient: A case report, 326
- Adverse effects
 - Implications of pharmacogenomics for anesthesia providers, 393
- Afghanistan
 - Operative splenectomy for treatment of homozygous thalassemia major in Afghan children at a US military hospital, 129
- Age factors
 - see AANA Journal Course, Part 5, 483
- α_2 Agonists
 - Anesthetic management of a pituitary tumor resection with dexmedetomidine, 125
- Airway
 - Anesthetic implications for the patient with osteogenesis imperfecta, 47; see AANA Journal Course, Part 1, 151; Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321

- Airway trauma
 - Thoracotomy for tracheal disruption after traumatic intubation: A case report, 400
- Airway tumors see AANA Journal Course, Part 4, 413
- Alternative therapies
 - Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181
- Ama T, Bounmythavong S, Blaze J, Weismann M, Marienau MS, Nicholson WT: Implications of pharmacogenomics for anesthesia providers, 393
- Ambulatory surgery
 - Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181; Patient outcomes comparing CRNA-administered peripheral nerve blocks and general anesthetics: A retrospective chart review in a US Army same-day surgery center, 215
- Amphotericin B
 - Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321
- α -Amylase
 - Determining the relationship of acute stress, anxiety, and salivary α -amylase level with performance of student nurse anesthetists during human-based anesthesia simulator training, 301
- Analgesia
 - Nonopioid anesthesia for awake craniotomy: A case report, 29; Prolonged apnea after small single dose of intravenous tramadol, 110; Patient outcomes comparing CRNA-administered peripheral nerve blocks and general anesthetics: A retrospective chart review in a US Army same-day surgery center, 215; Implications of pharmacogenomics for anesthesia providers, 393
- Analgesia, epidural
 - Case report: Anesthetic management of acute fatty liver of pregnancy in the postpartum period, 223
- Anesthesia, caudal
 - Caudal anesthesia in a patient with severe pulmonary hypertension, 202
- Anesthesia, combined
 - Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191
- Anesthesia, general
 - Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191; Patient outcomes comparing CRNA-administered peripheral nerve blocks and general anesthetics: A retrospective chart review in a US Army same-day surgery center, 215
- Anesthesia, local
 - see AANA Journal Course, Part 4, 69; Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313; Use of lipid emulsions for treatment of local anesthetic toxicity: A case report, 359
- Anesthesia, neuraxial
 - Neuraxial anesthesia for a parturient with hypogammaglobulinemia: A case report, 134; Case report: Anesthetic management of acute fatty liver of pregnancy in the postpartum period, 223

Anesthesia, regional

Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191; Patient outcomes comparing CRNA-administered peripheral nerve blocks and general anesthetics: A retrospective chart review in a US Army same-day surgery center, 215

Anesthesia, spinal

Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191

Anesthesia, total intravenous

Use of dexmedetomidine and ketamine infusions during scoliosis repair surgery with somatosensory and motor-evoked potential monitoring: A case report, 446; Use of propofol and emergence agitation in children: A literature review, 468

Anesthetic adjuncts

Anesthetic management of a pituitary tumor resection with dexmedetomidine, 125; Use of propofol and emergence agitation in children: A literature review, 468

Anesthetic implications for the patient with osteogenesis imperfecta, 47

Anesthetic management of a pituitary tumor resection with dexmedetomidine, 125

Antibodies

Neuraxial anesthesia for a parturient with hypogammaglobulinemia: A case report, 134

Anticoagulation see AANA Journal Course, Part 5, 483

Antiemetics

Biphasic dosing regimen of meclizine for prevention of postoperative nausea and vomiting in a high-risk population, 55

Antiepileptic drug therapy

Vagal nerve stimulation: A case report, 146

Anti-inflammatory agents

The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Antithyroid medications see AANA Journal Course, Part 1, 151

Anxiety

Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181; Determining the relationship of acute stress, anxiety, and salivary α -amylase level with performance of student nurse anesthetists during human-based anesthesia simulator training, 301; Exploring student nurse anesthetist stressors and coping using grounded theory methodology, 474

Aortic dissection

Emergency repair of aortic dissection in a 37-week parturient: A case report, 63

Apical ballooning syndrome see Cardiomyopathy

Apnea

Prolonged apnea after small single dose of intravenous tramadol, 110

Apoptosis: Understanding programmed cell death for the CRNA, 237

Arndt K see AANA Journal Course, Part 2, 246

Arthroplasty

Total knee arthroplasty in a patient with diastrophic dwarfism, 366

Asepsis

Neuraxial anesthesia for a parturient with hypogammaglobulinemia: A case report, 134

Aspiration see AANA Journal Course, Part 5, 483

Attenuation see AANA Journal Course, Part 3, 332

Attilio P, Merriitt C, Sims J, Kane N, O'Sullivan J: The effect of

ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Austin R III see Burgert JM; Gegel BT

Austin RD: Thoracotomy for tracheal disruption after traumatic intubation: A case report, 400

Autosomal recessive disease

Total knee arthroplasty in a patient with diastrophic dwarfism, 366

Aviation see Letters, 444

B

Barker MC: Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191

Basilar invagination

Anesthetic implications for the patient with osteogenesis imperfecta, 47

BChE gene

Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313

Bennetts PS, Pierce JD: Apoptosis: Understanding programmed cell death for the CRNA, 237

Bergakker SA: Case report: Management of elective cesarean delivery in the presence of placenta previa and placenta accreta, 380

β -Thalassemia major

Operative splenectomy for treatment of homozygous thalassemia major in Afghan children at a US military hospital, 129

Biddle C see Guest Editorial, 105

Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462

Biphasic dosing regimen of meclizine for prevention of postoperative nausea and vomiting in a high-risk population, 55

Blaze J see Ama T

Blood loss

Ischemic optic neuropathy after spine surgery, 141

Blood loss, surgical

Anesthetic implications for the patient with osteogenesis imperfecta, 47; Acute normovolemic hemodilution in a Jehovah's Witness patient: A case report, 326; Case report: Management of elective cesarean delivery in the presence of placenta previa and placenta accreta, 380; The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Blood pressure

Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230

Blood transfusion

Acute normovolemic hemodilution in a Jehovah's Witness patient: A case report, 326

Bohan KJ see McKay KAC

Bolt JD, Schoneboom BA: Operative splenectomy for treatment of homozygous thalassemia major in Afghan children at a US military hospital, 129

Books, Etc

McGraw-Hill's *I.V. Drug Handbook*, 9; *Chemistry and Physics for Nurse Anesthesia: A Student Centered Approach*, 108; *Evidence Trumps Belief: Nurse Anesthetists and Evidence-Based Decision Making*, 261

Bopp EJ, Estrada JL, Kilday JM, Spradling JC, Daniel C, Pellegrini JE: Biphasic dosing regimen of meclizine for prevention of postoperative nausea and vomiting in a high-risk population, 55

Bordi S see *AANA Journal Course*, Part 1, 151
 Bounmythavong S see Ama T
 Boytim M see *AANA Journal Course*, Part 1, 151
 Brady T: Anesthetic management of a pituitary tumor resection with dexmedetomidine, 125
 Brain death
 Inhalational anesthesia for organ procurement: Potential indications for administering inhalational anesthesia in the brain-dead organ donor, 293
 Broken heart syndrome see *Cardiomyopathy*
 Bronchial tumors see *AANA Journal Course*, Part 4, 413
 Brown ED see *Legal Briefs*, 270
 Brull SJ see *Prielipp RC*
 Brydges GJ see *AANA Journal Course*, Part 4, 413
 Bryngelson JA see *Yauger YJ*
 Buen JE see *McKay KAC*
 Burgert JM, Gegel BT, Austin R III, Davila A, Deeds J, Hodges L, Hover A, Lockhart C, Roy J, Simpson G, Weaver S, Wolfe W, Johnson D: Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230
 Burgert JM see *Gegel BT*
 Burns
 Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313
 Bupivacaine
 Nonopioid anesthesia for awake craniotomy: A case report, 29
 Burns SM see *Varela H*
 Butyrylcholinesterase
 Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313

C

Calcium channel blockers
 Use of clevidipine for intraoperative hypertension caused by an undiagnosed pheochromocytoma: A case report, 288
 Cardiac anomalies
 Anesthetic implications for the patient with osteogenesis imperfecta, 47
 Cardiomyopathy
 Stress-related cardiomyopathy in a 31-year-old woman, 406
 Cardiopulmonary bypass
 Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313
 Cardiovascular diseases see *AANA Journal Course*, Part 2, 246
 Carroll T see *Welliver D*
 Case report: Anesthetic management of acute fatty liver of pregnancy in the postpartum period, 223
 Case report: Management of elective cesarean delivery in the presence of placenta previa and placenta accreta, 380
 Caspases
 Apoptosis: Understanding programmed cell death for the CRNA, 237
 Casserly IP see *Pfister S*
 Catecholamines
 Use of clevidipine for intraoperative hypertension caused by an undiagnosed pheochromocytoma: A case report, 288;
 Inhalational anesthesia for organ procurement: Potential indications for administering inhalational anesthesia in the brain-dead organ donor, 293
 Caudal anesthesia in a patient with severe pulmonary hypertension, 202
 Catheter, epidural see *Letters*, 93
 Causalgia see *Complex regional pain syndrome*
 Cell death
 Apoptosis: Understanding programmed cell death for the CRNA, 237
 Celox
 Effects of Celox and TraumaDEX on hemorrhage control in a porcine model, 115; Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230
 Centers for Medicare & Medicaid Services see *Imaging in Time*, 96
 Central sensitization
 Overview of complex regional pain syndrome and recent management using spinal cord stimulation, 208
 Cesarean delivery
 Case report: Management of elective cesarean delivery in the presence of placenta previa and placenta accreta, 380
 Children see *Pediatrics*
 Choleva AJ: Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321
 Clevidipine
 Use of clevidipine for intraoperative hypertension caused by an undiagnosed pheochromocytoma: A case report, 288
 Clotting disorders
 Management of trauma-induced coagulopathy: Trends and practices, 35
 CMS see *Centers for Medicare & Medicaid Services*
 Coagulation
 The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453; see *AANA Journal Course*, Part 5, 483
 Coagulopathy
 Management of trauma-induced coagulopathy: Trends and practices, 35
 Coccidioidomycosis
 Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321
 Collaboration see *Education News*, 14
 Collagen
 Anesthetic implications for the patient with osteogenesis imperfecta, 47
 Collins S see *Key KL*
 Colonic perforation
 Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462
 Colonoscopy
 Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462
 Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191
 Communication see *Letters*, 444
 Comorbidity
 Apoptosis: Understanding programmed cell death for the CRNA, 237
 Complex regional pain syndrome
 Overview of complex regional pain syndrome and recent management using spinal cord stimulation, 208
 Complications
 Massive hemoptysis during monitored anesthesia care for esophagogastroduodenoscopy with percutaneous endoscopic gastrostomy tube placement: A case report, 43;
 Anesthetic implications for the patient with osteogenesis imperfecta, 47; Emergency repair of aortic dissection in a 37-week parturient: A case report, 63; see *AANA Journal Course*, Part 4, 69; see *Letters*, 93; Patient outcomes comparing CRNA-administered peripheral nerve blocks and general anesthetics: A retrospective chart review in a US Army same-day surgery center, 215; Use of clevidipine for intraoperative hypertension caused by an undiagnosed

pheochromocytoma: A case report, 288; Thoracotomy for tracheal disruption after traumatic intubation: A case report, 400; Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462

Confidentiality see Legal Briefs, 270

Congestive heart failure see AANA Journal Course, Part 5, 483

Connective tissue diseases

- Anesthetic implications for the patient with osteogenesis imperfecta, 47

Consortium see Education News, 14

Continuing education see Guest Editorial, 105

Cooley anemia

- Operative splenectomy for treatment of homozygous thalassemia major in Afghan children at a US military hospital, 129

Coopmans VC see Books, Etc, 9

Coping mechanisms

- Exploring student nurse anesthetist stressors and coping using grounded theory methodology, 474

Corrections

- Kattato DF: A modified approach to intubation and single-lung ventilation for lobectomy in a 2-year-old child: A case report, 95; Brady T: Anesthetic management of a pituitary tumor resection with dexmedetomidine, 251; Kline JP: Use of clevidipine for intraoperative hypertension caused by an undiagnosed pheochromocytoma: A case report, 428

Cortical reorganization

- Overview of complex regional pain syndrome and recent management using spinal cord stimulation, 208

Cost factors

- see Letters, 94; The open mind: The normalization of deviance: Do we (un)knowingly accept doing the wrong thing? [reprinted with permission from *Anesthesia & Analgesia*. 2010;110(5):1499-1502], 284; Xenon as an anesthetic agent, 387

COX inhibitors see Cyclooxygenase inhibitors

Craniotomy, awake

- Nonopioid anesthesia for awake craniotomy: A case report, 29

Crew resource management see Letters, 444

Crisis resource management see Letters, 444

Crowley RL, Haas RE: Total knee arthroplasty in a patient with diastrophic dwarfism, 366

Culture of safety

- The open mind: The normalization of deviance: Do we (un)knowingly accept doing the wrong thing? [reprinted with permission from *Anesthesia & Analgesia*. 2010;110(5):1499-1502], 284

Cyclooxygenase inhibitors

- The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Cystic fibrosis

- Massive hemoptysis during monitored anesthesia care for esophagogastroduodenoscopy with percutaneous endoscopic gastrostomy tube placement: A case report, 43; see AANA Journal Course, Part 2, 246

Cytochromes

- Implications of pharmacogenomics for anesthesia providers, 393

D

D'Angelo MR, Dutton RP: Management of trauma-induced coagulopathy: Trends and practices, 35

Daniel C see Bopp EJ

Darlong V see Pandey R

Davila A see Burgert JM; Gegel BT

Death, preventable

Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230

Decision making see Letters, 444

DeCristofaro C see Key KL

Deeds J see Burgert JM; Gegel BT

Delirium

- Use of propofol and emergence agitation in children: A literature review, 468

Determining the relationship of acute stress, anxiety, and salivary α -amylase level with performance of student nurse anesthetists during human-based anesthesia simulator training, 301

Dexmedetomidine

- Anesthetic management of a pituitary tumor resection with dexmedetomidine, 125; Use of dexmedetomidine and ketamine infusions during scoliosis repair surgery with somatosensory and motor-evoked potential monitoring: A case report, 446

Disaster response see Guest Editorial, 264

Dix D see Higgins D

Donohue K see Yauger YJ

Doppler effect see AANA Journal Course, Part 3, 332

Downey PM see Imagining in Time, 96

Drug effects

- Apoptosis: Understanding programmed cell death for the CRNA, 237

Drug variability

- Implications of pharmacogenomics for anesthesia providers, 393

Dutton RP see D'Angelo MR

Dwarfism

- Total knee arthroplasty in a patient with diastrophic dwarfism, 366

Dysplasia

- Total knee arthroplasty in a patient with diastrophic dwarfism, 366

Dyspnea

- Bilateral tension pneumothoraces and subcutaneous emphysema after colonoscopic polypectomy: A case report and discussion of anesthesia considerations, 462

E

Ear, nose, and throat diseases see AANA Journal Course, Part 2, 246

Education

- Determining the relationship of acute stress, anxiety, and salivary α -amylase level with performance of student nurse anesthetists during human-based anesthesia simulator training, 301; Exploring student nurse anesthetist stressors and coping using grounded theory methodology, 474

Education News

- A model for utilization of academic resources: The Philadelphia Area Nurse Anesthesia Educational Programs' Shared Curriculum Consortium, 14

The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181

Efficacy

- Implications of pharmacogenomics for anesthesia providers, 393

Elakkumanan LB see Pandey R

Electromagnetic interference see AANA Journal Course, Part 5, 483

Elisha S see AANA Journal Course, Part 1, 151

Elkins LJ: Inhalational anesthesia for organ procurement:

Potential indications for administering inhalational anesthesia in the brain-dead organ donor, 293

Ellagic acid
The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Emergency agitation
Use of propofol and emergence agitation in children: A literature review, 468

Emergency care see Letters, 444

Emergency repair of aortic dissection in a 37-week parturient:
A case report, 63

Empyema, parapneumonic
A modified approach to intubation and single-lung ventilation for lobectomy in a 2-year-old child: A case report, 24

Emulsion, lipid
see AANA Journal Course, Part 4, 69; Use of lipid emulsions for treatment of local anesthetic toxicity: A case report, 359

Enantiomer
Prolonged apnea after small single dose of intravenous tramadol, 110

Endotracheal intubation
Thoracotomy for tracheal disruption after traumatic intubation: A case report, 400

Endotracheal tube see AANA Journal Course, Part 1, 151

Epidural analgesia/anesthesia
Lumbar epidural catheter placement in the presence of low back tattoos: A review of the safety concerns, 197;
Postoperative patient-controlled analgesia in the pediatric population: A literature review, 374

Epidural catheters
see Letters, 93; Lumbar epidural catheter placement in the presence of low back tattoos: A review of the safety concerns, 197

Epidural PCA see Epidural analgesia/anesthesia

Epilepsy, medically refractory
Vagal nerve stimulation: A case report, 146

Epinephrine see AANA Journal Course, Part 4, 69

Error
The open mind: The normalization of deviance: Do we (un)knowingly accept doing the wrong thing? [reprinted with permission from *Anesthesia & Analgesia*. 2010;110(5):1499-1502], 284

Esophagogastroduodenoscopy
Massive hemoptysis during monitored anesthesia care for esophagogastroduodenoscopy with percutaneous endoscopic gastrostomy tube placement: A case report, 43

Esters
Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313

Estrada JL see Bopp EJ

Evidence-based practice
Lumbar epidural catheter placement in the presence of low back tattoos: A review of the safety concerns, 197; see Guest Editorial, 279

Evoked potentials
Use of dexmedetomidine and ketamine infusions during scoliosis repair surgery with somatosensory and motor-evoked potential monitoring: A case report, 446

Exploring student nurse anesthetist stressors and coping using grounded theory methodology, 474

F

Facebook see Legal Briefs, 270

Falyar CR see AANA Journal Course, Part 3, 332

Familial hyperkalemic periodic paralysis
Combined spinal/general anesthesia with postoperative

femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191

Femoral injury

Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230

Femoral nerve block

Combined spinal/general anesthesia with postoperative femoral nerve block for total knee replacement in a patient with familial hyperkalemic periodic paralysis: A case report, 191

Flow cytometry

The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Fluconazole

Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321

Franson HE: Postoperative patient-controlled analgesia in the pediatric population: A literature review, 374

Free radical scavengers

The effect of ellagic acid on platelet activation as measured by the quantification of P-selectin using flow cytometry, 453

Fungal diseases

Anesthetic management for lobectomy in a patient with coccidioidomycosis: A case report, 321

G

Garg R see Pandey R

Gastrointestinal system diseases see AANA Journal Course, Part 2, 246

Gastrostomy tube

Massive hemoptysis during monitored anesthesia care for esophagogastroduodenoscopy with percutaneous endoscopic gastrostomy tube placement: A case report, 43

Gegel BT, Burgert JM, Lockhart C, Austin R III, Davila A, Deeds J, Hodges L, Hover A, Roy J, Simpson G, Weaver S, Wolfe W, Johnson D: Effects of Celox and TraumaDEX on hemorrhage control in a porcine model, 115

Gegel BT see Burgert JM

Genetic disorders see AANA Journal Course, Part 2, 246

Genetically linked diseases

Operative splenectomy for treatment of homozygous thalassemia major in Afghan children at a US military hospital, 129

Genetics

Pseudocholinesterase deficiency: A comprehensive review of genetic, acquired, and drug influences, 313

Genitourinary diseases see AANA Journal Course, Part 2, 246

Genotype

Implications of pharmacogenomics for anesthesia providers, 393

Gold M see Wolff DL

Gold ME see Higgins D

Gonzales EA, Ledesma RJA, McAllister DJ, Perry SM, Dyer CA, Maye JP: Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181

Grounded theory

Exploring student nurse anesthetist stressors and coping using grounded theory methodology, 474

Guest Editorial

To the readers of, and contributors to, the AANA Journal: Your participation is vital! 105; Making a difference: CRNAs aboard the *USNS Comfort* respond to the disaster in Haiti, 264; Advancing evidence-based nurse anesthesia practice, 279

Guided imagery
Effects of guided imagery on postoperative outcomes in patients undergoing same-day surgical procedures: A randomized, single-blind study, 181
Gupta P see Pandey R

H

Haas RE see Crowley RL
Hader AL see Legal Briefs, 270
Haiti, see Guest Editorial, 264
Ham S: Emergency repair of aortic dissection in a 37-week parturient: A case report, 63
HCFA see Health Care Financing Administration
Health Care Financing Administration see Imagining in Time, 96
Health insurance see Letters, 94
Health Insurance Portability and Accountability Act of 1996 see Legal Briefs, 270
Heart failure see AANA Journal Course, Part 5, 483
Heiner J see AANA Journal Course, Part 1, 151
Hemodilution
Acute normovolemic hemodilution in a Jehovah's Witness patient: A case report, 326
Hemodynamics
Caudal anesthesia in a patient with severe pulmonary hypertension, 202; see AANA Journal Course, Part 5, 483
Hemoptysis
Massive hemoptysis during monitored anesthesia care for esophagogastroduodenoscopy with percutaneous endoscopic gastrostomy tube placement: A case report, 43
Hemorrhage
Anesthetic implications for the patient with osteogenesis imperfecta, 47; Effects of Celox and TraumaDEX on hemorrhage control in a porcine model, 115; Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230; Case report: Management of elective cesarean delivery in the presence of placenta previa and placenta accreta, 380
Hemostasis
Effects of Celox and TraumaDEX on hemorrhage control in a porcine model, 115; Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230
Hemostatic agents
Effects of Celox and TraumaDEX on hemorrhage control in a porcine model, 115; Effects of arterial blood pressure on rebleeding using Celox and TraumaDEX in a porcine model of lethal femoral injury, 230
